

Peninsula Village

Our Educators at Umina Kids Club have worked hard to establish a well-known place in the Local Community. We have been working with Peninsula Village to create a partnership in which we can help each other throughout the year, either by sharing skills and knowledge, or by simply making visits to brighten the days of the Senior Members in our local community. The residents of peninsula village visit us once a month on alternating days so that all children can be involved in this community project. The residents join in activities with the children and it is a wonderful enriching experience for both the children and the residents who do not live close to grandparents or grandchildren, whilst educating children about diversity.

Monthly visit
May 2016.
